

# Practicum in Transportation, Distribution & Logistics

**Prerequisite:** Advanced Automotive Technology

**Credits:** 2

**Length:** 18 weeks

**Course:** 1821CT

**Placement:** 12

## Course Description

This course is set up for a student who wants to work in the afternoon and get school credit. The practicum course is a paid or unpaid internship for students participating in the Automotive Technology courses. A student must have an Automotive Technology related job no later than the first 2 weeks of class to get credit for a Practicum class. Student must adhere to all workplace rules and regulations and have a positive report from employer.

## Student Activities

If you're interested in high-tech, fast-paced and lucrative work in the automotive service industry, AYES can not only provide you with a solid education while you are in high school, but also offer you the opportunity of a paid internship under a senior technician at a local automotive service employer. This will provide you with the skills needed to build a great career.

## Certifications

Student ASE Certification in:  
 Maintenance & Light Repair  
 Suspension & Steering  
 Brakes  
 Engine Repair  
 Engine Performance  
 Manual Drive Train & Axles  
 Air Conditioning & Heat  
 Electricity & Electronics

## Organizations/After School/Competitions

Ford / AAA Student Auto Skills competition fosters young people's interest in the automotive industry through a spirited nationwide competition with opportunities to win prizes and scholarships.

## Additional Considerations

If seeking certification, curriculum cannot be modified. Students must provide their own transportation and complete independent internship.
