

Financial Mathematics

Prerequisite: A combination of any 2 intro level Finance courses AND Algebra I

Course: 1224CT

Credits: 1

Length: 18 weeks

Placement: 10-12

Course Description

Learn how to manage your money, rather than letting your money manage you.

Did you know?

1. Nineteen people become victims of identity theft every minute.
2. The number of jobs in the finance industry are growing at a fast rate and pay almost twice as much as the median average wage.
3. Your credit score can affect your career, where you live, and your love life.

In Financial Math, you learn about financial topics that matter in your life. This is a math class where you learn things that you will really use.

Topics of study include: employee pay statements, federal taxes, the costs of housing, credit, vehicle purchase vs. lease, investments, insurance, retirement, and budgeting.

This course can count for Math Credit

Student Activities

Learn to fill out your own tax returns.

Become proficient in Microsoft Office Excel.

Prepare a financial sales presentation or consultation for a customer in need of financial advice over a specific financial topic.
